Paul Stacey

Bureau of Water protection Department

I'm writing regarding my concerns about stream flows. Many streams and rivers have become congested and polluted, but please do not eliminate these areas. Instead work to make them available waterways as they use to be. Our children & grandchildren rely on us to protect these areas, you can help. We of this era did not cause this problem we are striving to help correct it.

Thank you for your time.

Sincerely,
Carole Golitko
